

# Nicolás Luarte

nicolas@luarte.net

## research interests

---

- Decision making under uncertain environments;
- Evolutionary roots of decision-making processes;
- Neural implementations of decision-making behavior;
- Search;
- Evolutionary psychology.

## education

---

### — Graduate

**2017 - 2018 M.S (Magíster) in Social Neuroscience** Universidad Diego Portales

**2010 - 2015 M.S (Magíster) in Organizational Psychology** Universidad Adolfo Ibáñez

### — Undergraduate

**BA (Licenciatura) Psychology** Universidad Adolfo Ibáñez

## research experience

---

### — FONDECYT (National Fund for Scientific and Technological Development)

**Research study assistant** Collaborative study between the Psychology and Architecture school to study the perception of distinct urban environments by means of Geo-referencing, EEG, and eye-tracking data acquisition. Assisted in EEG and Eye-tracker experiment setup and execution, data pre-processing and analysis.

**Thesis-related research** Masters thesis project on decision making processes under natural environments, comparing algorithms for both external and internal (cognitive) search, using an evolutionary frame-work. Literature review, opinion paper and experimental task scripting and execution.

## other work experience

---

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

### — Book research assistant
